Compliance Key for Mental Health

Want help keeping track of the changing requirements, laws and revisions that you need to keep up with, on top of seeing your clients? It can be hard enough to maintain your practice, without investing the time to research and decipher the ever-evolving landscape of HIT (health information technology), changing laws and all of the terminology that goes along with it. That's where we come in.

Let us help you stay on top of the variables so you can focus on your clients. In addition to our [Resource Centers for Mental Health Providers](#) and [free, printable guides / whitepapers](#) about various issues that affect your practice, we're also changing our newsletter format to offer you smaller, more digestible pockets of information on a more frequent basis. Keep an eye out for the new weekly PIMSY Quick Bites with easy-to-understand breakdowns of current hot topics, offers of resources and links to more info.
