Are You a Target!?

"Half of all data breaches now occur in healthcare. Attacks by hackers on healthcare providers have increased more than 100% since 2010. The FBI warns that health data is highly valued by criminals but healthcare lags badly behind other sectors.

Health data sells for 10 - 20 times more than credit card data." - 4medapproved

If you work in healthcare, including mental & behavioral health, **you're at an all-time high risk of HIPAA data breaches.**
