What is Your 2014 Compliance Plan?!

2014 is a big year for medical industries, including mental & behavioral health - are you prepared for compliance??

> **ICD-10:** this is one of the biggest changes the healthcare industry has experienced in decades—it affects all ICD diagnosis codes, which are HIPAA-mandated for any type of billing, including insurance and Medicaid / Medicare. Even if your practice is entirely self-pay, you need to formulate an action plan for this **now**. Check out our [2014 ICD-10 Overview](#) for details.

> **Meaningful Use Stage 2:** Whether you're participating in the Meaningful Use incentive program or not, it's another huge change that will affect healthcare IT for 2014, as vendors and colleagues (PIMSY included!) seek to attest to a complicated set of criteria. Learn more about [Meaningful Use for behavioral health](#). **Our team is excited to [welcome Meaningful Use expert Jim Tate to the PIMSY Advisory board!!](#)**

> **HIPAA Omnibus:** this has been predicted to catch practices unaware in 2014, and with hefty penalties / criminal charges at stake, you must ensure that your organization is up-to-date with compliance. We're honored to host HIPAA expert Rebecca Morehead for quarterly compliance webinars throughout 2014!! Get started with our complimentary [2014 Omnibus Guide](#).
