We now offer electronic billing to every MCO and can connect your practice to any private payer.

**PIMSY EHR is proud to partner with Aym Technologies to offer
you complete Revenue Cycle Management (RCM)**

This partnership increases the options available to PIMSY clients, and gives them access to Aym's Revenue Cycle Management (RCM) services, while still taking advantage of the comprehensive and flexible EHR offered by PIMSY.

Aym's RCM services uses its highly specialized collections team and their Back Office tools to enable rapid increases in collection rates, allowing practices to better anticipate and maintain cash flow. Aym bills electronically to every MCO and can connect your business to any private payer, while allowing you a convenient, automated, single point of origin for all of your billing.

Organizations can choose to utilize RCM services on a temporary basis to eliminate specific problems - or to choose a completely outsourced back office to make billing and collections a seamless, automated, and worry-free process.

By working together, Aym's extensive billing services will be available to a wider array

of organizations, and PIMSY users will have the benefit of using these established, proven services to streamline their cash flow and grow their practices.

WHY DON'T YOU POST PRICES ON YOUR WEBSITE!?

We've been criticized for not listing our prices on our website. Why don't we? Because our pricing is not static:

- 1) We offer a variety of optional add-ons, including data migration, that make the pricing individual for each practice.
- 2) Many practices have part-time employees or volunteers that we don't charge a full seat for – meaning that we look at your unique organization needs and structure to offer you the best scenario possible.

That being said, here are some hard numbers: [click here](#) to read article...

MEANINGFUL USE MYTH # 2

"Meaningful Use doesn't affect me because I'm in mental & behavioral health / substance abuse / psychiatry"

FALSE! Meaningful Use affects all practices who have an MD, DO or NP (on staff or contracted) and who receive reimbursements from Medicaid and/or Medicare. This greatly impacts substance abuse and psychiatry practices!

For Medicaid, your practice must have a minimum client population of 30% Medicaid. For Medicare, there is no minimum.
