Thank You...

...for your readership, for your feedback, for helping us grow.

The information shared in these newsletters is driven by your feedback. Thank you for reading; for shaping our offerings with your responses; for helping us grow; and for inspiring us to keep working hard.

Our primary motivation is 1) to help you find the right EHR for your practice, whether that's PIMSY or not! 2) to ease some of your workload by researching and compiling industry & compliance changes, so you don't have to.

Thank you for helping us in these endeavors!!

Best Wishes for a safe & Happy Thanksgiving,
the PIMSY Team

WHY SHOULD YOU PICK PIMSY?

WHAT IF YOU DON'T PICK PIMSY?

EHRs are a dime a dozen. What makes PIMSY stand out from the pack?

> PIMSY is both an EHR and a practice management system:

everything is connected, electronically, in **one** smart, integrated package

> PIMSY grows with your practice:

PIMSY offers 4 different tiers of price & functionality, so you have access to all of the features you want but can pick the level you need. Move seamlessly between the plans as your practice grows.

> Flexibility: PIMSY's Q&A features allow you to customize the system to your specifications

> Outstanding Support: our stellar support team guides you every step of the way and provides all the tools needed to get the most out of PIMSY.

While PIMSY is an incredible system and we'd love to have you as a client, **our top priority is helping you connect with the right EHR for your practice, even if that means it's not PIMSY.**

There are many factors that influence finding a good EHR fit, and it's vital to take your time when choosing one. Too often, a practice will select a system without enough research and end up with a legacy system that they outgrow within a few years (or less!)

The industry is currently saturated with organizations on their second, third or fourth program; and the time & energy to switch systems is far greater than the initial research and investment to find the right EHR. To help, we offer complimentary guides for this important choice.

Check out our [Software Shopping Tips, 7 Tips to Find the Right EHR for Your Practice](#), and our [EMR Resource Center](#) for upcoming articles and additional tools.
