Making the most of your practice

Join Revenue Cycle Management (RCM) consultant Doug Finley for a complimentary webinar

We get it: time is unbelievably tight - how can you even think about carving an hour out of your day for a webinar? Trust us: this one will be worth your time!

Learn how to **increase efficiency, eliminate redundancy, and maximize your precious resources** – in this complimentary webinar presented by Revenue Cycle Management consultant Doug Finley.

This webinar might fill your lunch break for one day, but it will provide strategies to shave *hours* off of your workload, increasing your overall practice profitability. It's a great return on your time investment!

Doug has more than 10 years of senior management experience in both the behavioral healthcare and internet technology fields. He leads the customer service and implementation teams and oversees the daily operations of Aym Technologies.

**Join him for a complimentary webinar about making your practice profitable:
Thursday, 8/28/14, 12:00 - 1:00 pm EST**

Can't make it at that time? Register anyway, and we'll send you a recording of the presentation to watch at your convenience.

HOW DO YOU CROSSWALK DSM AND / OR ICD!?

We know: it's confusing. And based on the questions our previous blog posts generated, we're realizing it's even more complicated than previously thought! So here's a little clarification:

There are no actual DSM-5 codes – but there kind of are....?? Here's the deal:

PIMSY TEAM WALKS TO FIGHT LUPUS

"Lupus is an unpredictable and misunderstood autoimmune disease that ravages different parts of the body. It is difficult to diagnose, hard to live with, and a challenge to treat."

Although lupus is not in itself a mental

there are not four code sets; there are only two: ICD-9 and ICD-10.

So what's the difference between DSM and ICD? How do you crosswalk the two code sets? Does the delay in ICD-10 transition mean you should also delay using DSM-5? Where do you find the ICD-10 codes for mental health?

Don't worry: we've got you covered! [Click here](#) for blog post or [here](#) for printable pdf

illness, the stress of living with this often debilitating disease can cause emotional issues - these challenges can increase one's risk of depression and related mental health problems, such as anxiety, stress and low self-esteem. One of the keys to thriving with lupus is to have strong mental health support.

We on the PIMSY team are honored to participate in the efforts of the Lupus Foundation. [Click here](#) to read more.
