"I am loving the credit card integration with PIMSY. I was running cards anyway and then entering them into PIMSY, but with this, I don't have to do the extra step.

It definitely cuts down on my work, which is nice. It frees me up to do other things! This is the best feature yet!!!" - Leslie L, Billing Specialist

We're happy to report that PIMSY clients are thrilled with our recent integration with BluePay. We first unveiled this feature [back in the fall](#), and now that our clients are experiencing for themselves how beneficial the services are, we're even happier with the partnership.

With BluePay, PIMSY provides our clients with much more - for far less - by giving them the ability to process their transactions through their integrated EHR at a lower cost.

Here are some of the benefits of BluePay:

> Guaranteed Cost Savings: BluePay typically saves mental health practices 25% - 35% on processing fees

> Guaranteed time savings and reduction of keying errors by doing everything in one place (no more double entry)

> More versatility with how practices accept payments, which can lead to enhanced patient satisfaction / retention

> **Quicker Funding** (BluePay has next-day funding available)

Blue Pay Also Offers:

- *Free Mobile Swiper
- *American Express (AMEX)
- *Data Security
