# Ummm....that's PIMSY, not pimpsy!

We actually crack up in the office when someone mispronounces our product name as "pimpsy" - how could you not!? While our unique name showcases the individuality of our product and services, it also doesn't immediately convey what it is.

**PIMSY is software: electronic health records (EHR) and Practice Management for mental / behavioral health, including Psychiatry and Counseling**

PIMSY stands for Provider Information Management Systems - essentially, a

comprehensive system that manages all of your client and practice data. PIMSY saves you time (and therefore money) by reducing your tasks to a few button clicks. Because it makes you more efficient, it frees up your time and resources to focus on your clients.

Watch a few of our [2 minute videos](#) to see how PIMSY handles the treatment plan, group notes, authorization tracking, ePrescribing....and much more.

Not only is our name unique, but so is our approach: we set our bar higher than others in providing a top-notch product and services. We'd love to show you how PIMSY can make your practice more profitable - [let us know](#) if you'd like to see more.

**Not interested!? No worries!** Our feelings aren't hurt - and we certainly don't want to clog up your inbox with emails that don't pertain to you. If you're no longer interested in receiving these emails, please [click here](#) to unsubscribe.
