We just got back from the National Council Conference (see below), and if there's one thing we learned: there are a lot of EHR options on the market! Thankfully, **PIMSY has some unique differences that set it apart from the pack:**

1. Customizable & Flexible Program

You control and calibrate system settings

2. Everything in one system

PIMSY is both EHR and practice management in one efficient system

3. Affordable Behavioral Health EHR

Get an enterprise-level EHR, with all the bells & whistles, at a sustainable price

4. Group & Team Notes

One of the only mental health EMRs that offers group and team notes

5. Custom Client Care

Our Customer Service Team guides and support you through every bit of training, implementation and support - included in the cost!

6. Leading the Mental Health Compliance Pack

PIMSY already has all a complete electronic DSM-5 and all of the psychology & psychiatry ICD-10 codes built in! Plus a unique PQRS reporting tool, is fully HIPAA compliant, Meaningful Use 2014 Edition ("Stage 2") certified and more.

7. Created in the trenches, for mental & behavioral health

PIMSY isn't a hasty after-thought put out by an EHR giant: we were created for your industry, by providers who understand your unique qualities. We take care of the administrative details so you can focus on your clients.

Fun at NatCon

We just got back from the 2015 National Council for Behavioral Health Conference in Orlando, and it was a *blast!*

If you're not familiar with NatCon, it is **the** event

for mental/behavioral health providers and offers CE/CMEs for attendance. Check out our pictures and reflections [here](#).

Dr. King Corner

DSM-5 wisdom from the guy who wrote the book! We're honored to have Dr. Jason King, the expert on DSM-5, on our Advisory Board - and to share his comprehensive articles with you!
