Who Are We!?

PIMSY is a software that replaces paper charting - created by and for mental / behavioral health and substance abuse providers.

It's both a Practice Management System, meaning that it helps organize and streamline every aspect of a practice; and EHR (Electronic Health Records), keeping all patient data securely stored in the Cloud.

Check out this 30 second overview:

Why do we keep emailing you?

1) We have solid compliance content to share: see our HIPAA post below - and check out our [Resource Centers](#).

2) PIMSY can help your practice: "Your product is awesome, and everyone in the mental health field needs it." - Rick B., MA, LPC

PIMSY saves time, reduces costs and increases your practice profitability. If you're considering transitioning off of paper - or upgrading your current electronic system - [check us out](#).
