PIMSY EMR

Why Should You Have a Mental Health Practice Management System?

"I researched multiple EMR programs to find one that was affordable for a small business owner like myself, yet had all the features for a big company, so I could expand my practice. PIMSY was the clear winner.

PIMSY more than pays for itself by streamlining my office, improving efficiency and reducing billing times. I would recommend PIMSY to anyone looking for a good EMR company that will help you implement its program and help you with any questions you have along the way."
(Seth Haney, Norcon Family Counseling)

How much time and money are you spending each month to:

- manage authorizations
- complete payroll
- bill your claims
- track and receive claims
- create cost reports
- manage denials
- search through filing cabinets to find needed documents
- research information about your clients
- search your computer for files or email files around
- research information for your staff
- prepare for audits and certifications…?

PIMSY EHR is a mental health practice management system that simplifies your workload, reducing these tasks to a few button clicks. It compiles all the data you need at your fingertips, saving you time, labor and money. PIMSY can organize your entire practice and streamline all of your processes, freeing up your time to *focus on your clients*.

Why should you choose PIMSY over other mental health practice management systems?

> PIMSY was specifically designed and created for mental health care providers. PIMSY wasn't patched together a few years ago in order to meet Meaningful Use requirements or hastily extrapolated from a larger medical system. It was thoughtfully designed, with the user in mind, to be a great system, period. It was created by and for mental health care professionals, and it continues to grow & evolve based on the feedback we get from our clients.

PIMSY EHR

> PIMSY grows *with* your practice. We offer 4 different tiers of PIMSY to meet your unique needs and budget. You can easily and affordably start out at one tier and move up in functionality as your practice needs change.

> PIMSY provides superior customer service: training and support are included in the cost, and we provide all the resources needed to get the most out of our system. This means a real live person is available to answer your support call, 8 AM to 8 PM. If for some reason we can't answer, you'll receive a call back within the hour.

Our clients also receive support and assistance via: email; easy how-to videos; the PIMSY user forum; user FAQ; Help Desk and support tickets. We provide *free* client webinars for new features and do everything we can to assist our clients with industry changes, such as HIPAA compliance, ICD-10 and CPT code transitions. We also offer Resource Centers to provide assistance with questions and issues, including compliance.

> PIMSY ties it all together. PIMSY EMR is both a fully-featured EHR *and* a robust practice management system. It ties everything together into **one** integrated package at an affordable price.
